IEP Meeting Red Flags Checklist

Trust your instincts & know what to look for.

IN THE MEETING

You were not given enough notice to prepare

The team seems to have already made decisions before the meeting started

You are being pressured to sign the IEP before you are ready

Your concerns are being dismissed or minimized

Services are being justified by what the school "typically does" rather than your child's needs

No one can explain how goals were developed or what data supports them

You are being rushed through the document without time to read or ask questions

Related services are being reduced or removed without a clear data-based explanation

Your child's progress, or lack of it, is not being directly addressed

IEP Meeting Red Flags Checklist

Trust your instincts & know what to look for.

IN THE DOCUMENT

Goals are vague or cannot be measured objectively

Present levels do not reflect what you know about your child

Goals are not connected to the present levels described in the IEP

Accommodations are copied from a previous IEP without discussion

Services are listed in minutes but no one can explain how that amount was determined

The Prior Written Notice does not explain the reasons for decisions clearly

Placement is more restrictive than what was previously discussed

ESY is denied without explanation or data

Checking off more than a few? You do not have to figure out next steps alone.
